

Arctic Discoveries

Polar Bears and a Changing Climate

Discover why polar bears are facing challenges in their Arctic environment, and how polar bears at the Alaska Zoo provide important insight into wild polar bear research. This program provides participants with a greater understanding of how a changing climate affects the survivability of this iconic Arctic animal.

Wednesday, July 25
11:00am - 11:45am

recommended for ages
10 - adult

Broadcast from the Alaska Zoo
